

MONEY AND ELECTIONS IN ILLINOIS 2002

STATE BOARD OF ELECTIONS

INTRODUCTION

The Illinois State Board of Elections is pleased to present its seventh report which summarizes the flow of dollars in political campaigns in Illinois. This report follows our 2000 study by reviewing contests in the 2002 election cycle. Again we have attempted to paint the "big picture" in an effort to bring some meaningful analysis to the large sums of money spent to elect candidates to public office in this state. We have also added some new features which we hope will enhance the report.

The races covered in this review include contests for Judicial and Statewide offices and the Illinois General Assembly. The information is based on public reports filed with the Board by these state committees as required by law. Everything contained in this report represents information that could have been accessed by any member of the public.

The Board appreciated the warm response and helpful suggestions subsequent to the publication of its first six reports. We hope this new and improved product will enhance the current debate on how to regulate money in political campaigns for public office.

We welcome your comments and suggestions at any time.

RECEIPTS AND IN-KIND CONTRIBUTIONS

The receipt and in-kind contributions graph illustrates the amount of in-kind contributions received by House and Senate candidates. In-kind contributions are receipts of goods and services rather than hard dollars.

The expenditure and transfer out graph illustrates the monetary donations made by House and Senate candidates as opposed to the regular expenditures of the committees.

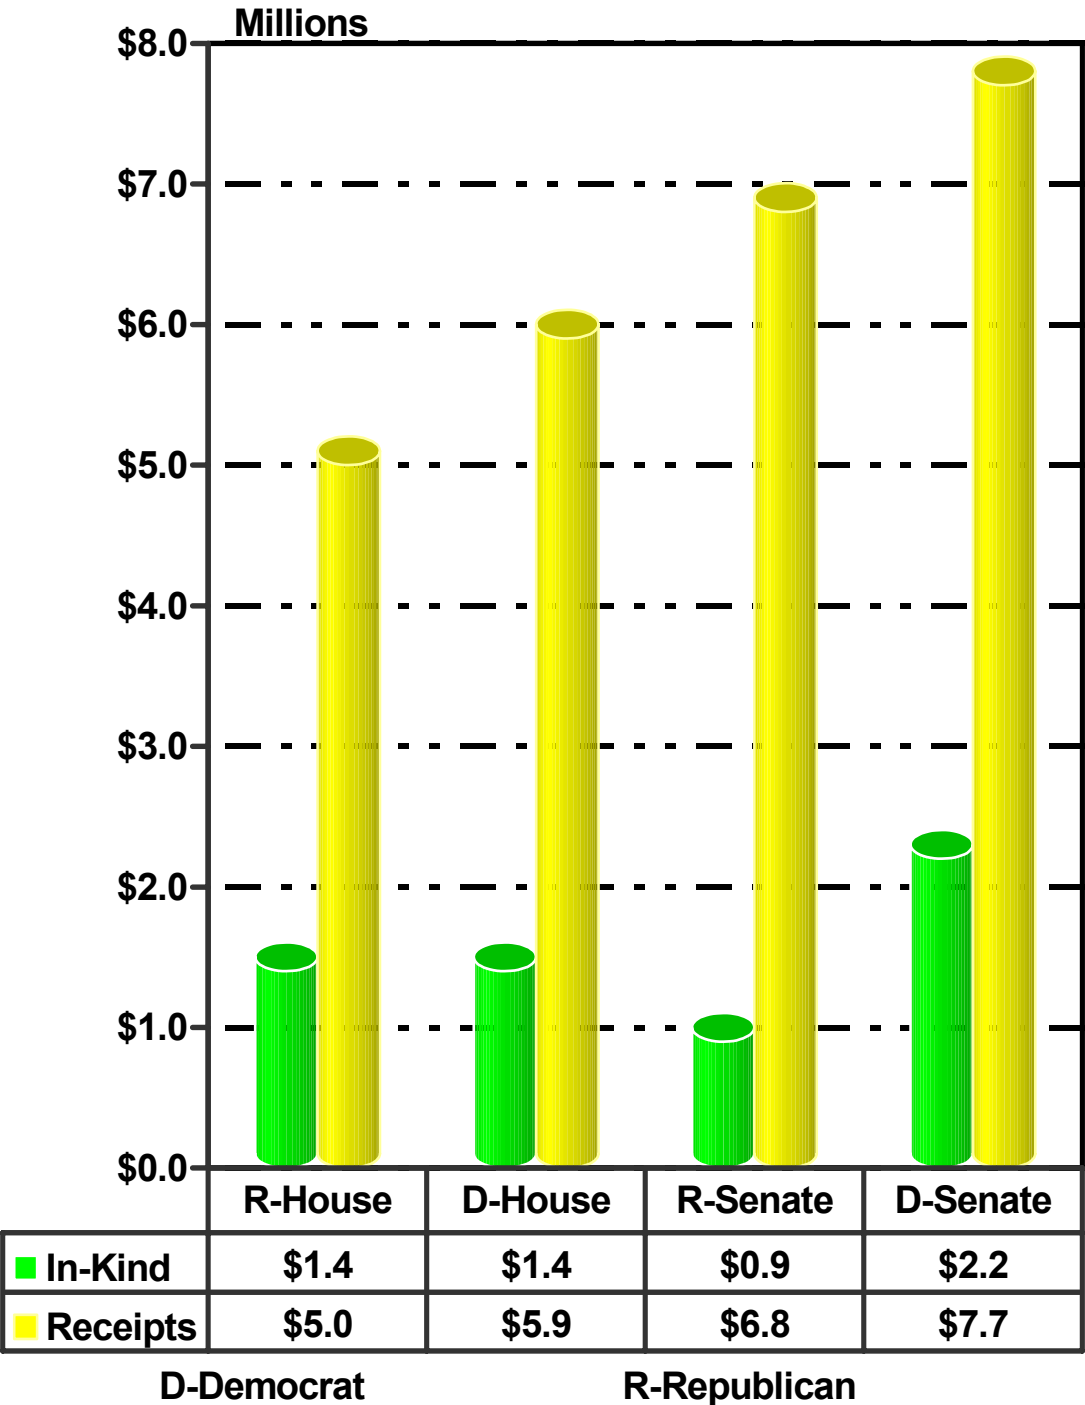

The purpose of comparing in-kind contributions to transfers out (monetary donations) is to explore the difference between the two, based upon who decides how such contributions shall be used. Monetary donations can be used as the candidates deem necessary, but decisions regarding in-kind contributions (i.e. printing, radio or TV spots) are made by the committees making the donations in conjunction with the candidates receiving the in-kind contributions.

ELECTRONIC FILING

Effective with respect to Semi Annual Reports covering the last six months of 1999, all active committees that during a reporting period had at any time balances or accumulations of contributions of \$25,000 or more, made aggregate expenditures of \$25,000 or more, or received loans of an aggregate of \$25,000 or more were required under the Illinois Campaign Finance Act to file disclosure reports electronically.

The State Board of Elections provides such committees with filing software at no charge. All reports filed electronically are promptly made available to the public by means of a searchable database on the Board's website, www.elections.state.il.us.

The graph on the next page shows the percentage of Legislative and Judicial Committees, as well as Political Action Committees, that filed their 2002 disclosure reports electronically. It also shows the percentage of A-1 reports (identifying loans or contributions in an aggregate of \$500 or more from single sources within 30 days of an election) that were filed electronically in 2002. The A-1 data references all political committees.

Electronic Filing of Reports 2002 Elections

The following pages portray aggregate campaign finance data for all General Assembly races on the 2002 Illinois ballot. Several explanations are needed before reviewing the data.

A district showing only one Republican or one Democrat represents an uncontested race in the general election.

In-kind contributions have been added to expenditures to derive a more accurate expenditure per vote. An in-kind represents an expenditure made by another on behalf of the candidate.

Representative Districts 22 and 46 have had expenditures reduced by the amounts donated to or spent on the behalf of other candidates. The adjustment was made to reflect the leadership positions of the candidates in the above districts and more accurately reflect expenditures per vote in these districts.

Candidates with no political committee on file are not included. These candidates collected/expended no more than \$3,000 in a 12 month period, which is the statutory threshold for reporting in Illinois.

Candidates with political committees that did not file their Semi Annual reports for the last six months of 2002 by April 1, 2003, are also excluded.
